

Murray State Cycling and Lake Barkley State Resort Park present:

Racer Rampage 2008

Saturday and Sunday, July 26th and 27th

Short Track: Custom-made for the sadist lurking in every racer, our short-track loop consists of even portions of open field and singletrack. With the former crossing flat terrain, and the latter routing racers up a stout power-climb followed by gradual descent, the course provides a taste of the best of what LBSRP has to offer.

Cross-Country: Lake Barkley's mountain bike loop doles out equal servings of pleasure and pain. The course's character is dominated by several lung busting ascents (with a side of switchbacks) and a mile-long rock garden romp on Racer Ridge. It shares portions of its end section with the STXC course, and finishes in a wide-open, spectator-friendly open field where a properly-timed sprint counts for just as much as a strong pair of legs.

Notes: In addition to prizes for finishing well in respective events, there will be several bonus payouts. First, \$25 will be awarded to the finisher with the fastest lap on each day. Second, primes will be in effect during the STXC race: racers who competed last year can look forward to the same unconventional, yet desirable, awards.

Directions: From Paducah/Nashville take I-24 east/westbound to Exit 65 (Cadiz), follow Hwy. 68 West to State Park Road (turn **right** at the big state park sign), follow signs to the beach; from Louisville take I-65 **South** to WKY Parkway to I-24 then follow above route.

Accommodations: Lake Barkley State Resort Park has both a well-appointed lodge (270-924-1131), and a large campground with everything from primitive campsites to pads with electricity and water hookups for trailers. Additionally, the resort lodge has breakfast, lunch, and dinner buffets; the marina has a general store and short-order cafe. Off-campus, Cadiz has both a Holiday Inn Express (270-522-3700) and a Super 8 (270-522-7007).
